**Men Demand Investigation Into Conditions of Timbering—This Question Will Be Considered at Joint Meeting on Feb. 10th.**

Ferio, Jan. 31.—H. Hurd, general manager of the Crow's Nest Coal company, said today that he expected the strike at the mine to be soon settled. The men claim that the management have altered the conditions of employment so much that it means a reduction in the wages and they demand an investigation.

Others, however, continued to allow the old methods of timbering to continue and refused permission for the men to go on strike. It was agreed under the new arrangement, which they refused to do.

Conditions of work were settled last night. A conference with the management will be held and the question of a strike will be considered at a meeting of the joint board of operators and employees on February 10th. It is expected that the strike will spread to the other properties of the same company.

### RESOLUTION OUT OF ORDER

B. C. Legislature Discusses Impeachment of Dunsmuir.

Victoria, Jan. 30.—The Socialists resolution of impeachment, which the Liberals supported, was ruled out of order by the Speaker. The language used being disrespectful to the Lieutenant-Governor, and also that it did not state a specific impeachable offense. The speaker also held that the reserving of the Natal Act was within the constitutional right of the government, whether by royal warrant or by instructions from the governor-general, and the legislature by well-known precedents had no right to impeach the lieutenant-governor except as an preliminary to an address to the government.

The Socialists will telegraph appeal to the House against the ruling, and if defeated will seek the reactivation of the resolution against the ruling.

In the result, it is understood, despite the fact that the Natal Act, proposed by Liberal leader, argued that as the Act could not apply to the Japanese owing to their race, nor to the Chinese owing to their race, the Natal Act refers to Hindus only. As Canada's interests were paramount to Imperial law, the proposal was withdrawn, and the ceremony was satisfactorily done.

The Conservatives supported the government's views as expressed in the Commons yesterday, pointing out that the Conservatives refused the treaty with a restrictive clause.

### HUNTING SET UP FAST.

Two Clergymen Resign Because Bishop Objects to Criticism.

Washington, Eng., Jan. 30.—A great and far-reaching scandal has broken among the hunting set. The Rev. Dr. R. G. Cleghorn, Obsec Mordant, rector of Hartington, Cheshire, and Rector Tidbin of Cheltenham have resigned their positions because the bishop of Birringshambrough, who is the head of the Hunting Association, in his letter to their campaign against the "loose living" of fox hunting, said, "to our own terms."

The hunt, undeniably sincere and conscientious, has given communion to a young married couple, both of whom have been divorced by their former life partners.

The other members of the hunting set have turned to church with their horses, but the others, who are bold and constantly involved against the "loose living," say that they were causing widespread alarm by hurting the morals of the whole neighborhood.

The preachers further declared that the women and men of the hunting set "represent a material for divorce more plentifully than any other."

The women, who are the Salvation Army, the Red Cross, and the like, have all day and dashes to go.

So the whole world will learn how fast one must live to be true to fast.

### NEED UNDER SECRETARIES.

Senators' Bill on the growing豪華度, and the Senate, with its mother parliament and her dependent business, had little time to devote to the consideration of the bill, and with whom the filling of posts, could gain more value than major interest.

Pointing out the number of offenders in the British House, Senator Ross said that the bill would bring the cabinet rank and office to the young men's attention to promotion and would tempt them to fall away from public affairs.

Secretary of State Scott congratulated Senator Ross on his bill, and forgave the provincial government which took care of a large portion of the affairs of the country. The bill, on paper, did not draw sufficient attention, nor could it agree that departmental details took so much time as indicated.

### SENATE DISCUSSES REFORM.

#### In the Senate—Senator Davies' Open Letter to Government for Control.

Ottawa, Jan. 30.—In the Senate house yesterday Senator Davies, resuming the debate on Senate reform, said that he had experienced in both chambers of the legislature a desire to do something for reform, but not for abolishment.

After the conference in the Mayors' office with Col. J. M. Gibbons, he was told that the Senate was left with the responsibility of doing something for reform, but not for abolishment.

Manitoba illustrated the necessity of having a second chamber, the telephone deal, saddling the provinces with a charge for telephone service, and the like, have gone through without the people having the opportunity of expressing their opinion. The Senate, I hope, will appreciate that the time was coming when they would have to remove the tariff.

With 53 members for Quebec as a basis, the growing west would in five years require a tariff of 20 per cent. and in ten years there would be a surplus, unless the system were recast, according to the time the present members' presents would accommodate.

#### Elected Every Two Years.

Hon. George W. Ross, senator, gave seats in the Senate without votes, so that information could be obtained from the members before him. He would have two half representation balanced for by the election of senators by the people of each province.

He also said that the Senate was to be a remnant of the Commons for its oratorial flow.

Senator Ross, of Halifax, interjected that the Senate was to be a good deal for the west. It was surprising he did not propose moving the capital to the West.

Senator Davies would have the western provinces grouped as one in the Senate, and the same representation in the Senate, which was part of the Confederation Act.

With the growth of the country coming when, with the shifting centers of population, the Senate would be too large, and the cost of maintaining a numberless and original constituency.

Consequently, he moved an amendment to the bill.

The amendment is: "In view of the many suggested changes in the manner of representation, and the like, the Senate may pronounce on it at present, but that the legislation should be initiated in the Senate, and that the Senate may introduce or defeat measures in either chamber."

#### SCOTT'S TITLE HUNTING.

### MONTREAL LIVE STOCK.

Montreal, Jan. 30.—The cattle trade was dull with no material change in prices. Prices were up 10¢ to 20¢ a cent, but they were not extra pretty good 3¢ to 4¢, and common 2¢ to 3¢. The market was very quiet, but the severe cold served to prevent the buyers from getting in. The price of cattle was down to \$30 to \$40 each. Sheep were 4¢ to 5¢; lambs 5¢ to 6¢; good hogs sold at 6¢ to 8¢.

### CITY MARKETS.

The city market square was rather quiet today and very little trading was done. Cattle, hogs, hams and other farm products were offered for sale, but the volume of business done was small. The last few days the cold weather and lack of demand is partly responsible for this. Prices remain about the same as before. Many of the farmers in this district report having considerable quantities of grain in storage. It is reported that the reports published previously that there would be more need in this grain than in the market have been expected. Tests have been made of this grain by sowing in a box in the ground and the results show a greater portion of the seed germinated.

The market did not seem to have any hurry or desire to fill and were inclined to hold back. The market was quiet. There was fairly good call for cattle, but it was not too heavy, but the market for common steers was dull and drayage rates were high. The market for steers were much the same as a week ago, and the early week advance has been entirely wiped out. The market was not little is doing on the export account. Cows and heifers sold steady strong, with the demand better from that class of material than for steers.

After the opening the markets declined steadily throughout the day, reaching the lowest point of the day. # Better than ever

Good as Blue Ribbon Tea has always been, it will now be still richer and finer flavored.

For this reason—Tea gardens, like vineyards have their exceptional years, when the quality is away up.

This is a "vintage" year for quality on the estates where Blue Ribbon Tea is grown.

So for many months to come, Blue Ribbon Tea will be supertatively good.

Shrewd housekeepers will take advantage of this.

Tell your grocer you want Blue Ribbon Tea. Lead packets.
